Sharing Seconds - Design & Concept

Branding & Responsive Web Design

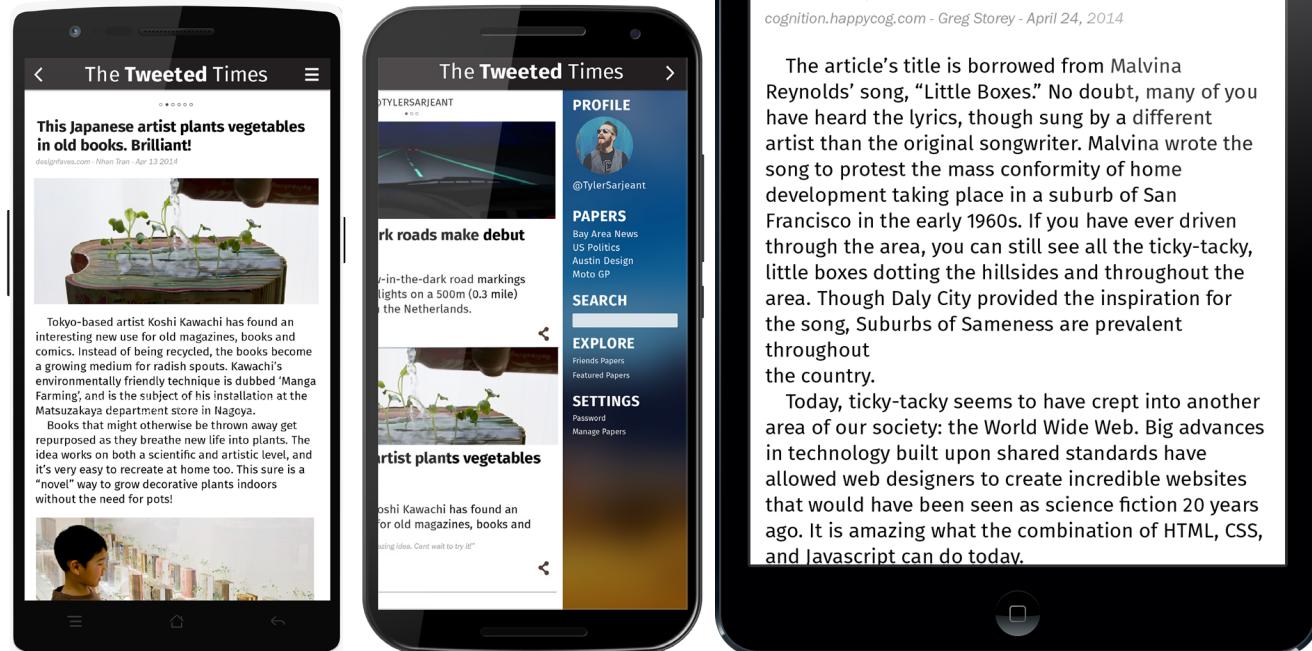

Sharing Seconds is a food donation platform making large portion leftover donation as simple as possible.

The Tweeted Times - Concept & Re-Design

Multi platform App Design

The Tweeted Times is a twitter fed news and information aggregator. It was based off an existing platform with the same name, however lacked the style, design, and platform availability an app of this manner should accommodate.

S2 Performance Training - Branding, Print & Web

Logo

S2 Performance Training is a police academy preparedness training program in Long Beach, California.

We worked together to produce an identity system that they could use in print and online. Print materials, t-shirts, and a web solution was also created as part of this campaign.

TCB Courier - Responsive Design/Development

Wordpress

TCB Courier wanted to redesign its out of date website, and give viewers more insight to who they were as a company. It leaned heavily on a blog based home page supported by many additional pages covering their service and their riders.

tcbcourier.com

DZR Shoes - Responsive Design/Development

This campaign was developed to utilize as many javascript tricks possible. It is a fully responsive site, that adds some unique user experiences to shopping for shoes online.

Launch Site

Logo - Designs

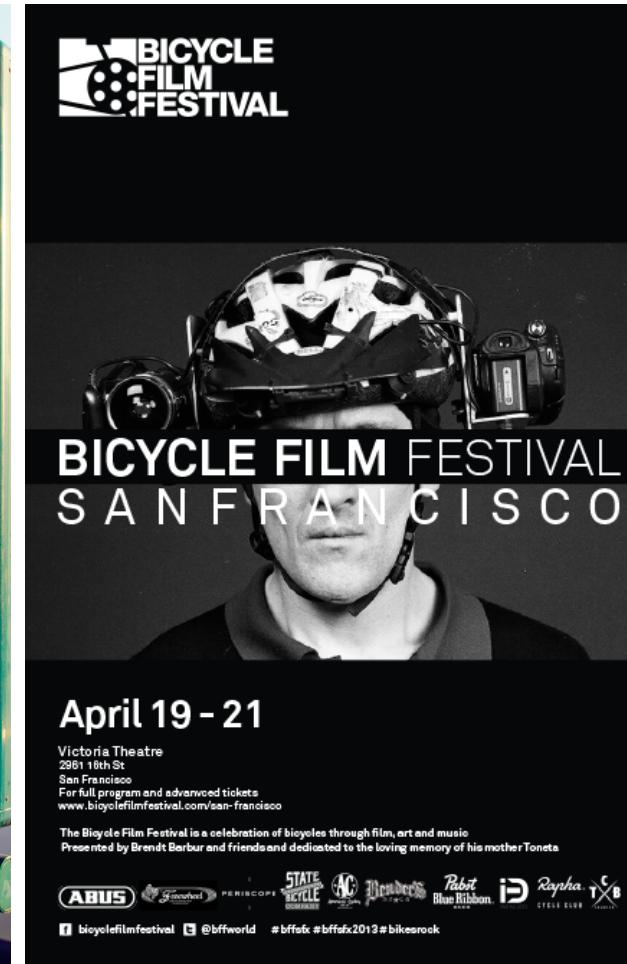

A collection of some of the various logo design concepts I have created. Some are sketched out and then built in InDesign. Others were hand lettered and then vectorized for optimum use.

See More

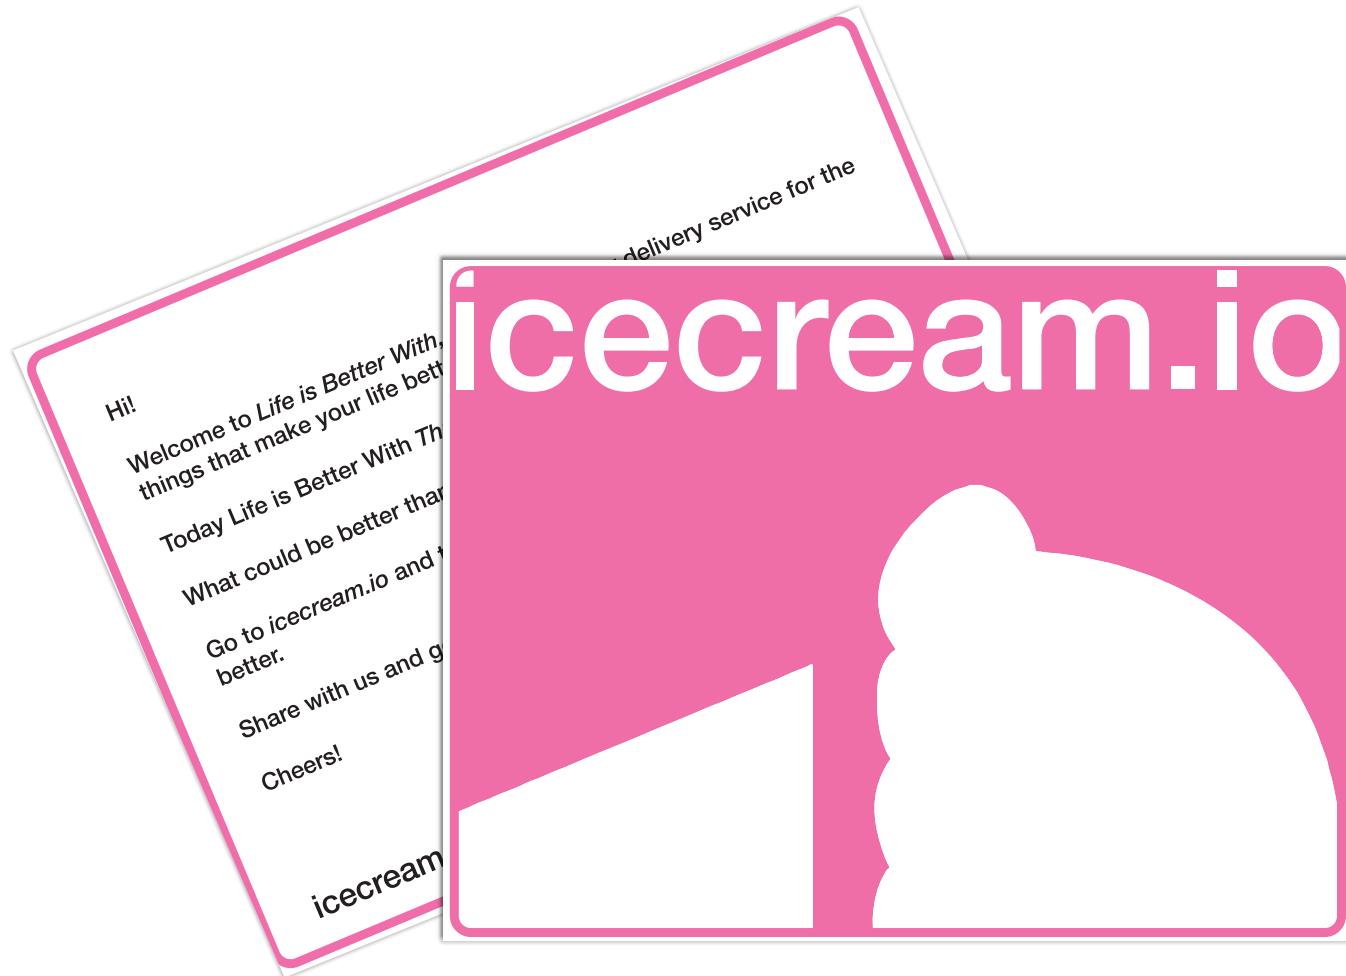

SF Bicycle Film Festival - Poster Design

I was contacted by the BFF director to create the 2013 San Francisco Bicycle Film Fest poster. The artwork, current branding, and general style was provided, and I pushed it to portray the requested feel.

Icecream.io - Flyer Design

This printed flyer was produced to advertise a new venture TCB Courier was releasing. It was designed to grab attention and explain the service.

Thank You!
